20 MARCH '90

Dear Harold,

Your recent letter to me (and copies of your correspondence to many others) convinced me more than ever before that you must write that book on the FBI. Tho you say that many books have been written on the FBI, But yours will be different. Yours will be a story of one man suffering the "slings and arrows of the outrageous" agency supposedly created to protect you, but actually depriving you (and many others) of your constitutional rights. Sling back!

Who can tell the story better than you? Who else must tell it?

Harold, you said it will take you much time to document your "definitive" book. Hell, what you've written so far "from the top of your head" is more accurate than some of the books on the JFK and M.L. King assassinations.

You know that you can back up any statement if questioned. In fact your files on the subject will make

them wish they had never overthrowed you. Why must you feel so guilty now?

At present, it seems to me, there is an awakening to both assassinations in the States and Europe. The world wants to know the truth. Only you have the truth about the cover up. Not only that, you have a personal grievance to vent for yourself and many other individuals. Why the timidity?

Gosh, if you start uncovering the dirty tricks the FBI pulled to frame Earl Ray, Dr. King, Hoffa, JFK it will be a sensation! It will be done, eventually, by someone else (and with your help!), so why don't you do it yourself? This is something you "must do for your country." It's your duty. Time is running out and I don't want you to waste it on others. What you're telling a few people you should let the whole world know it.

Take the first step to make that march for truth. To prove my conviction, I'll "put my money where my mouth is" and you can't shut me up! Love to Lil! Shalom!

Joe

P.S. As of this Sat (3/24/90) I'll be in Wilmington.
